- DO NOT place items on tops of beds, chairs and couches**

ADDITIONAL RECOMMENDATIONS

- Mattresses and box springs should be encased in bed bug proof covers**
 - This reduces pesticide use, eliminate bugs inside beds and protects beds from future problems
 - Please measure and call us in advance of our first visit
- Seal cracks and crevices in wooden bed frame(s), other furniture and baseboards**
- ClimbUp! Insect Interceptors should be installed under bed and couch legs**
